Affordance

- Perceived affordance
  - That these squares/buttons are clickable and is confirmed when hovering over the logos enlarge

Constraints

- Logical constraint
  - Since the first image shows that you're asked to enter your email logic dictates it has a form of [email@domain.com](mailto:email@domain.com) and wouldn't be an email otherwise
  - And when you press enter it's constrained to being an actual valid email

Transfer

- Positive transfer
  - Since the Athletics logo in the top left corner is clickable and brings you to the homepage just like most other websites.
  - Same with the 3 bars in the top right corner which brings down the navigation hub/bar to other links of the website.
